Have a great honour to invite you to:

VI International Scientific Conference

Problems and challenges of Transport Geography

Goals

The main objective of the conference is to create a proper environment for scientific discussion focused around theoretical, methodological and empirical problems of transport geography. It will also be a great opportunity to identify some research challenges while ensuring closer integration between scientific and research circles in Poland as it used to take place during historical meetings of transport geography in Arłamów, and Polańczyk and in recent years in Gdańsk, Łódź and Kraków.

Participants

We hereby invite all researchers, scientists, PhD students, students and enthusiasts being into transport and communication.

Language

Papers can be delivered in Polish, English and Russian.

Dates

Date of the conference:
26 November 2021

Registration:
until 12 November 2021
using the form:

Maintenance of traditional meetings in Polańczyk and Arłamów

The conference in Kraków refers to a rich scientific heritage of the Commission of Communication Geography of the Polish Geographical Society (PGS). In 1992 geographers focused on transport and communication met in Lublin. During this meeting, on Professor Krystyna Warakomska's initiative, an idea of creating the Commission of Communication Geography was submitted to the Polish Geographical Society. The Commission was set up in 1994 during a conference in Polańczyk. Professor Teofil Lijewski, representing the Institute of Geography and Spatial Organisation of the Polish Academy of Sciences, became the first chairman of the Commission. All participants taking part in the conference in Polańczyk agreed that there should be scientific meetings organised annually which ensure closer integration between scientific and research circles in Poland through exchanging views, experiences, publications and research results. The journal entitled Transport Geography Papers of Polish Geographical Society was a direct result of these meetings and it was regularly published in the period of 1996-2011, with a significant involvement of Professor Jerzy Kitowski from the University of Rzeszów, who took over the position of the Commission Chairman after Professor Teofil Lijewski had left. Other Management Board Members, Professor Stanisław Koziarski from the University of Opole and Professor Tomasz Komornicki representing the Institute of Geography and Spatial Organisation Polish Academy of Sciences, made a significant contribution to the work of the Commission. In April 2016 a new leadership of the Commission of Communication Geography was elected. A series of transport geographers meetings was resumed in 2016 in Gdańsk in a refreshed formula with a significant participation of the University of Gdańsk staff headed by Dr Marcin Połom. After conferences organised in Gdańsk in 2016, 2017, 2018, in Łódź in 2019, the last meeting took place in Kraków in 2020.

Current authorities of the Commission of Communication Geography of PGS:

Chairman - Dr Arkadiusz Kołoś,

Secretary - Dr Marcin Połom,

Board Members - Prof. Tomasz Komornicki, Dr Szymon Wiśniewski, Dr Karol Kowalczyk.
